

Please read our rules, if you don't understand – please don't hesitate to ask us.

Our setup is dedicated to providing an R/C drifting experience for Darwin fans. To ensure safety, fairness, and enjoyment for all our guests, we've established the following rules:

1. Children must be supervised at all times:

- While RC cars might look like 'toys,' they are precision machines—and many have cost their owners a few nights on the couch to acquire! To keep everyone happy and the gear intact, please ensure children are supervised at all times. We appreciate your respect for the drivers and their builds.

2. No Food or Drinks near the track:

- To keep the racing surface and equipment in top shape, please keep food and drinks away from the track, driver stands, and spectator areas. We have designated tables in the Pit Area for eating. When using the pits, please be mindful of neighboring tools and expensive electronics.

3. Track Access and Fees:

- *Track Admission:* Every driver must register before using the track. This policy helps us manage the facility efficiently and ensures fair use for everyone. Do not proceed to the track until you have paid in full, signed an indemnity, and registered.
- *Fee Structure:* The entry pass fee is \$15. Please note that this fee is non-refundable. Spectators can spectate for free.
- We do not offer Free drifting to our friends or family. Please do not put us in a position to have to say 'no' to you. Your Friends and Family are welcome to watch for Free, however they can not drive without paying.

4. Pit Area Regulations for Comfort and Safety:

- *Safety Measures:* Smoking is strictly prohibited inside the building. Smoking is allowed outside
- *Battery Charging Protocol:* Battery charging is only permitted in the designated charging station. Batteries are only permitted to be charged in a fireproof bag for the safety of everyone. Expanded or puffy batteries are strictly prohibited. No Spicy Pillows

5. Track Etiquette and Safety Rules:

- ***Driving off Track:*** There is no driving off the track for the safety of both your car, other people, and our track.
- ***Body Shell on Chassis at all times when on the Track:*** You must only drive your car on the track with a body shell installed to protect our track and other users cars.
- ***Direction of Travel:*** Driving in reverse or against the flow of traffic is strictly forbidden to prevent collisions and disruptions.
- ***Loading Zone Protocol:*** The loading zone is for quick transitions only. Please avoid stopping or parking in this area.

- **Blocking Vision:** When driving, step back from the edge of the track as you or your transmitter will be in the view of someone else's car.
- When walking, walk behind drivers, not in front of their view.
- **Emergency Procedures:** In case your vehicle becomes immobile, announce "CAUTION!!!" to alert others and prevent accidents.
- **Respect and Helpfulness:** Be respectful to every fellow RC Drifter at all times, on and off the track. Never make anyone feel unwelcome or uncomfortable, be helpful to your fellow hobbyists whenever you can, and go out of your way to help new people entering the hobby.
- **Speed and Overtaking:** If you are struggling with speed, please move to the left as far as possible when slower and/or faster cars are approaching. This will reduce the risk of damage to the track and cars.
- **Venue Conduct:** Running inside the venue is prohibited. You're older than you think. Look after your knees
- **Rule Adherence:** Failure to adhere to these rules may result in being asked to leave the facility.

These rules are designed with your best interests in mind, ensuring a safe, respectful, fair, and enjoyable R/C drifting experience with Darwin RC Drifting. We appreciate your cooperation and look forward to seeing you on the track!
